Programming	6+ yrs.
Network Management	4+ yrs.
Project Development	3+ yrs.
Web development	2+ yrs.
IOT	2+ yrs.
AWS	1+ yrs.
Big Data	1+ yrs.
English	TOEIC 65

Introduction

Since I was a child, I have loved discussing the use of computer software and hardware and various software packages that are convenient for life. Like to develope web pages alone or develop projects jointly with a team, good at learning or imitating other developers' original The program code is modified into its own style and content. After the five-year program implementation, graduation topic, and After participating in the AI financial big data analysis competition, I hope Improve my own ability to process data and apply deep learning to build modules, through the summer vacation Introduced by a friend of Fubon Life Insurance, I entered the information department of Fubon Financial Holdings as an intern, but it was not as expected I can learn more practical skills or project analysis and participate in the program development process, so this year Through the AI School program enrolled by Taipei University of Technology, I hope to be able to advance to those who were not more proficient in the five-year junior college. Programming language and deep learning concepts and implementations that modern people must understand to help oneself face the huge amount of data analysis And the problem can be solved efficiently when dealing with it.

Goal

JAVA OCP	03/2021 - today
MTA Python	10/2020 - today
ASP .NET C	09/2020 - today
TOEIC 750 up	09/2020 - today
CCNA	09/2020 - today
Academic Research Project of the Ministry of Science and Technology	03/2021 - 12/2021
School Community and Ministry of Science and Technology Project	03/2021 - 12/2021

Educate

09/2015 - 06/2020

Department of Information Management(Associate degree)
National Taipei University of Business

09/2020 - now

Department of Information Management(Bachelor)
National Taipei University of Business

Personal expertise

- Java
- Database Management
- IOT
- Web Site Design
- Fundation of Computer Science

Addition

- +886 920 035 439
- rex89x@gmail.com
- https://github.com/rex89x

Job Experience

- Servitor of Catering 2015/09-2020/01
- Servitor of NTUB Sport Department 2017/12-2019/12
- Servitor of NTUB Registration Department 2016/10-2019/12
- Fubon Financial Holdings Summer Intern 2020/07-2020/10

Project implementation

- RealShoot(IOT Shooting Game)   Unity、C、Arduino
- Store simple database management system   Node.js、WEB、SQL
- School Community and Ministry of Science and Technology Project   Java、Web、IOT、
- 2020 FinTech big data analysis   Python、IBM SPSS

March 2021
